### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

The combination and order of limitations below were not found in the prior art and are not deemed obvious.

- (a) partitioning storage media of the computer system into a first partition and a second partition;
- (b) installing software bundles in the second partition, each software bundle being stored in form as an image; and
- (c) installing bootable software and a user interface application into the first partition, the bootable software and the user interface application, when run, being able receive from a user a selection as to which of the software bundles to install in the computing system, and then to install a software a bundle selected by the user into the first partition while overwriting the bootable software and the user interface application, and then to erase the software bundles in the second partition.

#### **Examiner's Statement**

The destructive write of the image file is a key limitation. The Examiner mentioned recovery systems with hidden partitions with distribution software in the First Action On Merit. The Applicant's own work (XP version) was released after the filing of this application. This recovery method is not synonymous with the claimed invention. In fact the installation with this recovery method could be the result of the destructive installation of the image file. Examiner focused the updated search on the destructive installation of an image file located in the specific

partitions claimed and the user interface installation program also with specific partition location.

These limitation in combination and order are not found to be obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
